STRATTON MAY BE CANDIDATE FOR GOVERNOR

Carlstrom Also Favored By Lake County Republicans

Conspicuous among those mentioned as G. O. P. candidates for governor is the name of Secretary of State William J. Stratton, according to the Chicago Herald and Examiner. The possibility of the secretary becoming a candidate is being discussed by Lake county leaders.

Stratton according to the Herald and Examiner could have considerable backing in the downstate territory as well as in Chicago, where he has always had the support of the Lundin group.

Aside from Stratton, Attorney General Oscar Carlstrom is believed to be the most popular candidate for the nomination, among Lake county voters.

Carlstrom in to Finish.
Attorney General Carlstrom has already announced his candidacy.
"In 1928 I withdrew from the race for nomination for governor because of conditions then existing and because I believed my withdrawal at that time would further the best interests of the state," Carlstrom states in his announcement. "With those reasons and conditions, the people of the state are familiar. They do not exist at this time and I want to make one thing clear now and for the duration of the campaign: This announcement on my part does not signalize a mere entry into a sparring match, but on the contrary I shall carry the contest through to a decision in April of 1932, irrespective of who enters or what conditions may arise."

"I admit the personal desire to have the honor and privilege of being the governor of the great state of Illinois, but that honor would be empty indeed did I not see in it the opportunity for great service and accomplishment. I earnestly ask your support on this basis."

Mr. Carlstrom has a large following among ex-service men of Lake county because of his overseas record. His service in supplying legal opinion to various municipalities in the county has won him a number of friends.

Others Mentioned.
Among others said to be of gubernatorial timber are former Governor Len Small under whose regime Lake county enjoyed considerable prestige; and the incumbent, Governor Louis L. Emmerson. The more astute politicians declare it would be folly for Len Small to attempt to stage a comeback, and also that there is small chance of Governor Emmerson being returned to the office of chief executive.

Knotts Leave Paper Store; Take Over Golf Course

The Putt-Putt golf course was opened to the public today under the new management of Mr. and Mrs. John Knott.

The Knotts have relinquished their confectionery business and will be engaged for the summer in operating the golf course which they have rented from Frank Hunt. They have become proprietors of the stand on the north side also having completed negotiations to purchase the building Tuesday.

The golf course located just south of the post office and the confectionery was laid out and completed last summer by Mrs. Gibson of Fox lake, and later taken over by Frank Hunt.

Plans of Mrs. Walter Chinn, owner of the confectionery, for carrying on business there, are not known.

PICKEL CAMP LAKE ORCHESTRA LEADER, IS DEAD

Pasadena Gardens' orchestra leader, Roy Pickel, was taken by death at his summer home at Camp Lake last Friday.

Pickel was a member of the local American Legion post, and is well known in Lake and Kenosha counties. Burial was at his home in St. Cloud, Minn. He and his wife had been spending the summer at their Camp Lake cottage.

LOCAL MEN TO ATTEND SHRINERS' NAT'L CONVENTION

Fred B. Swanson, Lake street, manager of the Antioch Theatre, and M. W. Miller, also of Lake street, will leave Saturday for Cleveland, O., where they will be among the 200,000 in attendance at the fifty-seventh national Shriners' convention.

CHANNEL LAKE BOY HURT IN AUTO CRASH

Many Injured by Fireworks or in Motor Accidents Over Holidays

James Runyard, 20-year-old son of Mr. and Mrs. Frank Runyard of Channel Lake, was among the accident victims of the Fourth. He sustained a number of head cuts and face scratches, received when a driver of unknown identity crashed into the Runyard's truck near Halfday, Ill., early Saturday morning.

James was driving his father's truck. He did not see an approaching car, he said, but suddenly he felt one crash into him. He was found at 4 o'clock in the morning, lying unconscious by the road, and was taken to the Victory Memorial hospital, where he received treatment.

No one witnessed the accident, but those who found young Runyard reported that they saw a Buick being towed away. However, the boy's father declares that it must have been a truck which struck him, as Runyard's truck was smashed beyond repair.

James returned from the hospital Sunday afternoon.

Woodstock Boys Hurt.
Swerving from the road to avoid a crash, J. B. Madison and Frank Umahum, Woodstock boys, crashed into a cement culvert near the Flannigan farm on route 59 about 5 o'clock Saturday.

Umahum was hurled through the windshield, and received painful injuries to his face and neck which endangered the jugular vein. He was given treatment by Dr. H. F. Beebe, and sent home. Madison, owner of the car, was not hurt.

The car was quite badly damaged, and was towed to a garage for repairs.

Motorcyclist Killed.
Frank Attridge, 17, of Lake Forest, died about an hour after a collision of his motorcycle and an automobile driven by Mack Park, of Chicago, at the intersection of Western and Ill. highways, Lake Forest, yesterday morning. The lad died in the Alice Home hospital. Parks is being held by the police until the inquest.

Northbrook Woman Killed.
Mrs. Johanna Powers 58, of Northbrook, was killed when a hit-and-run driver struck her as she was crossing the Waukegan road to join her husband in a field across the road from their farm. She died in the ambulance, as she was being taken to the hospital.

Although, no one else was killed scores of others were hurt in motor accidents in Lake county over the holiday, or suffered from fireworks explosions.

Accidents Numerous.

Betty Foreman, 6-year-old girl of 207 Park avenue, Waukegan, is suffering from a broken collar bone and bruises received when a car driven by Matt Schneider, Waukegan, struck her when she dashed in front of the car at the intersection of Chapel street and Glen Road avenue Sunday night.

An accident occurred near Lake Zurich Monday when the car driven by Edward Paran, of Chicago, overturned. His companion, Miss Mary Geleke, 28, of Chicago, received numerous cuts and sprains, lost four teeth, and was sent to the Libertyville hospital.

Another accident took place near Lake Zurich Monday when two cars collided, resulting in injuries to A. J. Hammett, Miss Sarah Haley, and Miss Agnes Haley, all of Chicago.

Anna Kunz, of Cicero, was removed to the hospital after the car crashed into a culvert near Gurnee, when the driver, Elmer Burda, swerved to avoid a stone. Mr. and Mrs. Wiley Milton, of Chicago, also were hurt near Gurnee.

Fleuker Arraigned for Bank Robbery; Grant Kamin Delay

Bonds for Reinhold Fleuker, of Silver Lake, were set at \$10,000 when he was arraigned Friday for complicity in the robbery of the Melnhart State bank of Burlington nearly two months ago.

Frank Kamin, Silver Lake, was granted a continuance of the case Tuesday, when it was shown that his health was still too precarious for him to appear before Judge Belden. For the past two weeks he has been completing his recovery from bullet wounds in the Racine county jail. He was in the St. Catherine's hospital at Kenosha for five weeks.

Kamin and Fleuker were found shortly after the robbery in a cottage at Twin lakes, Kamin suffering from three bullet wounds, believed to have been fired by Officer Schenking into the back of a fleeing car at the time of the robbery.

The amount stolen, totalling over \$6,000, has never been recovered.

TWO BIG WILDCAT BREWERIES RAIDED

Squads Discover Vats at the Bert Bown and Laura Yopp Farms

Breweries and liquor property estimated to be worth \$40,000 were raided and seized at the farms of Mrs. Laura Yopp and Bert Bown, both near here, by squads of Sheriff Lester Tiffany Monday night.

The breweries had a weekly capacity of 8,000 barrels of Wort beer, it was estimated, and worth about \$20,000 each. William Hazzard and Thomas Miller, both of Chicago, were arrested at the Bown farm, but no one was found at the second place.

Thirteen Others Give Bond.

Thirteen of the saloonkeepers raided by Tiffany squads over the holidays appeared yesterday and gave bonds before Justice Harry Hoyt. They included Edward Harding, of Knollwood Crossing; Ray Frenzen, Walter Paske and Lillian Rother, all of Grass lake; George Koeth Jr., Bob Velessek, Otto Schueneman, Mary Ponik, W. J. Emig and Fred Elter, all of Fox lake; Joe Tanel, of Ingleside; L. O. Nelson, of Lake Zurich, and Edward Knickelbein, of Bluff lake.

nee, when the front spring of their car broke sending it into the ditch.

Fireworks Injure Many.

Many other accidents of minor nature were reported, as well as several injuries from fireworks. Among them was Harry Kramer, of Chicago, who was accidentally shot in the hip with a revolver at Long lake, Saturday. He is recovering. Vaino Laiho, 13, of Bangs lake; Jacques Kappen, 8, of Wauconda; Irene Smallfield, 8, of Burlington; and Edward Andree, 22, of Oak Park, all received severe burns from firecrackers.

Virgil Webb and Elaine Carlson, of Chicago, received fractures when they slipped and fell at picnic; Earl Baada, of Fairfield, is suffering concussion of the brain, due to being hit with a ball during a ball game Saturday. He was taken to Dr. Ross's emergency hospital at Wauconda. Raymond Zabricki, Chicago, youth, is also under Dr. Ross's care for a lacerated hip, injured when he was dragged along a barbed wire fence by a frightened horse. Others injured were A. Berg, 1133 Gladstone avenue; Richard Ross, Butler street; the 4-year-old child of the Miller family, on Lewis street; George A. Mann, Waukegan, and Irma Roussell, 2, of Highland Park.

NO CLUE IS FOUND IN M'HENRY GAME WARDEN SHOOTING

Three Suspects Released; Police at a Loss to Solve Mystery

With the release of three suspects in the murder of Charles M. Eldredge of Richmond, game warden of McHenry, Lake and Boone counties, authorities are at a loss in solving the mystery.

Eldredge was found shot on his island estate in Nippersink creek, near Richmond, Saturday. Police at first inclined to the belief that a poacher on Eldredge's 40-acre game preserve had committed murder, after Eldredge had arrested him, seized his gun, and taken away his license. They came to this conclusion because of a fishing license bearing the name of John Werschling, Chicago, found in his pocket.

This theory was exploded after Werschling had been arrested and had proved his innocence. He admitted the fishing license to be his, and said that Eldredge had taken it from him three weeks ago in Lake Villa because it was filled out improperly. The warden, he said, had given him a permit to continue fishing, and had advised him to get a new license, properly filled out. Werschling's story was supported by Michael and Nick Andree, who were with Werschling at the time.

Brother Slain With Same Weapon.
The warden was found 300 feet from a wooden bridge on his property lying near his automobile, slain with the same revolver which was employed to murder his brother, Earl, who was found shot under similar circumstances twenty-four years ago. The gun, which the warden had carried since that mysterious killing, was discovered lying near his boat, with one bullet fired.

Another gun, an old rusty .32 calibre pistol, known not to have been his, was in his pocket. It was the presence of these two guns, in combination with Werschling's license, which caused authorities to suspect the fisherman.

Well-Known Politically.
Eldredge was a former Chicago lawyer and a member of the legislature for two terms from Chicago. Later he moved to McHenry county and was chairman of the Republican central committee for two years there. For years he has served as an inspector for the state department of conservation.

Thoughts of investigators are now turning to the coincidence of the shooting of his brother twenty-four years ago with the same gun, and may result in revealing ancient feuds of political enemies.

Attorney General Asked Opinion on Co. Poor Payments

All-poor payments in Lake county have been cut off by Supervisor Matt P. Dilger poormaster pending the rendering of an opinion by Attorney General Oscar E. Carlstrom interpreting the new law which went into effect July 1, forcing payments of county poor on the township instead of upon the county at large.

Dilger is unwilling to make any payments until he hears some definite report from the attorney general. As matters stand the county township will be forced to send all applicants for poor aid to the poorhouse at Libertyville as the new law provides that the poorhouse shall shelter all persons asking for aid if the town is unable to supply it.

Some of the supervisors out in the county are continuing to order county aid but it is very likely that the treasurer will not honor these orders until he hears from the attorney general. These supervisors contend that the county will have to take care of the poor until September when the next levy can be made along with the road and bridge levy.

STRATTON REPORTS INTEREST MONEY ON STATE FUNDS

Announcement is made by William J. Stratton, secretary of state, that \$3,935.10 has been earned in interest on the money collected during the quarter beginning April 1 and ending June 30, 1931. This amount was paid into the state treasury today with an itemized statement showing the amount of interest earned during the quarterly period on each account in each bank.

Baby Is Buried in Hillside Cemetery

Funeral services for Leven Dorance, 8-day-old son of Mr. and Mrs. William Dorance of Chicago, were held last Thursday at the Hillside cemetery. The infant died June 30, after living but eight days.

Heat Wave Causes \$300,000 Loss To the Dairy Farmers

To the dairy farmers of the Chicago Milk Shed the recent torrid spell caused a loss of \$300,000. This amount was represented in the number of horses and other animals that died of prostration from the heat, it being estimated by officials of the Pure Milk Association, to which the dairymen of the Chicago area all belong, that at least 2,000 succumbed. Some cattle also have been killed by the hot sun.

During this season of the year the dairy farmer must cut his hay so that he will have feed for his cattle when the pastures begin drying up. He must do this cutting at the moment the hay becomes ripe, and dares not postpone it at his convenience for the hay is likely to be materially damaged by drought or rains if left standing. Because of this fact, it has become necessary to work in the fields long hours during the past week in spite of the intense heat.

A tremendous loss was also suffered by the dairy farmers during the heat wave through milk being returned because the heat had caused it to fall below health standards.

ANTIOCH WOMAN TO STUDY AT BUTLER UNIV. FOR SUMMER

Miss Beatrice M. Duffy, 1101 Main street, Antioch, is among the 900 people who are enrolled in the Butler university summer session, according to an announcement from the university registrar. Mrs. Duffy is enrolled in the Butler college of liberal arts, where she is taking work in education, English and sociology.

This is the largest summer session enrollment in the history of Butler. Unusual opportunities for study are being offered for undergraduates who wish to eliminate requirements for bachelor's and advanced degrees.

ASSESSMENT LISTS PUBLISHED TODAY

Today's home edition of the Antioch News carries the assessment rolls of Antioch and Lake Villa townships. The list appears in two special sections, totaling twenty pages in addition to the regular 8-page news section and four pages of comics. The lists and comics are omitted from the Lake county Taxpayers' edition.

This is re-assessment year and many changes in valuations have been made. Taxpayers wishing to file complaints with the Lake county board of review may do so during the months of July and August.

HORAN RECOVERS STOLEN CHICAGO CAR AT LOON LAKE

The Chrysler sedan, which was stolen from the garage of Al Marcussen, Chicago, Monday morning was found abandoned on the side of the road near Loon lake Tuesday evening by James Horan.

Marcussen identified the car, and drove it back to Chicago Tuesday morning.

Legion and Auxiliary Are Grateful to Public

On behalf of the Antioch post American Legion and the American Legion auxiliary we extend sincere thanks to the public for patronage during the Legion festival, and to the Antioch business firms for their splendid cooperation in making the fifth annual event the success it was.

TWO CHICAGO MEN DROWN IN THE FOX RIVER

Third Is Saved in Lily Lake by Red Cross Life Saving Expert

Two Chicago fishermen, Daniel Tomasetti, 34, 6171 Bloomingdale avenue, and John Sbarbaro, 35, 171 North McVicker avenue, lost their lives in Fox river, near Barrington, about 2 o'clock Sunday morning, when their boat overturned. Two companions, Tony Gnagni and Pesare Delbecchio, Chicago, were rescued.

The four young men had been fishing during the night from a rowboat, and about 2 o'clock in the morning, becoming tired, a suggestion was made that they change places. In attempting to do this, the boat overturned. Gnagni swam to shore and ran for help. Delbecchio, who had clung to the boat, was saved, but Tomasetti and Sbarbaro had gone under and failed to reappear above the surface. A search was started, but they were not found until 9 o'clock Sunday morning.

Another Saved Near McHenry.

The life of Fred Antoniello, 30, Chicago, was saved by Miss Ruth Johnson, of Highland Park, who dived for his body in Lily lake, near McHenry, Saturday, towed it to shore and directed resuscitation measures.

Antoniello had been under the water for fourteen minutes before his unconscious body was located by Miss Johnson, after 12 minutes of diving. He had become exhausted while swimming, and went down in 8 feet of water.

FIFTH AMER. LEGION FESTIVAL ATTRACTS HOLIDAY THROGS

Sponsors Are Happy in the Success of Fifth Annual Event

With the fireworks up in smoke, the Indians departed, the ferris wheel merry-go-round and chairplane removed, and all evidences of alluring tents and stands now gone, the American Legion festival crowds have only the memory of this fifth annual event. But what a memory!

Legion officials declare this festival to be as successful as those of previous years in every way, considering present economic conditions. Funds will be used for the relief of ex-service men.

The climax of the event was reached on Saturday night. An overflowing crowd, which was all that could possibly be handled, milled enjoyably over the grounds and stood in line for the rides. At 11 o'clock one of the best displays of fireworks of any of the neighboring cities was put on.

The festival was proclaimed a holiday spirit emphasized by a multitude of flags waving, gaily decorated lamp posts and telephone poles which bore the national and Legion colors and the canopy of patriotic bunting and welcome signs which floated over Main street and part of Lake. The business district let the world know that a festival was in progress!

Burglars Break into Three Places

Make Escape, as They Are Discovered at Main Service Station

Three places were entered by burglars last night, and oil, gas, cigarettes, and a combination telephone and coin box taken.

It was discovered this morning that oil and gas were missing from the Standard Oil Company warehouse, and, upon investigation, evidences were found that burglars had forced their way in.

Masek's filling station at the north end of the village is missing cigarettes, cigars, and a telephone and coin box which was yanked from the wall.

Frightened Away.

As the burglars were attempting to loot the cash register and safe in the Main Service station about 2:30 this morning they were discovered by the night watchman, Walt Chinn, who ran to call James Horan from the Antioch Hotel, but before the two men could reach the station, the thieves jumped into their car and fled.

HIGHER GASOLINE PRICES HELPFUL

Gasoline price wars—which have been virulently fought in many states during recent months—are considered by many motorists to be an unmixed blessing. Where once they were forced to pay 20 cents a gallon for fuel, they could buy it for 10 cents—and if the oil industry took a loss in the process it was nothing to them.

But the San Francisco Chronicle points out that during the last "war," a broader view of the situation was developed. "The industry, one of the largest in California, is operating at a loss, which sooner or later will disastrously affect its thousands of employees," says the Chronicle. "The public will feel that in its pocket nerve

"The government is losing large sums of money in taxes. The other taxpayers—which means everyone—will have to make up the difference."

What is true in California, is likewise true in many other states. At a time when industrial rehabilitation and stimulated employment are the burning issues of the day, a losing business is bad for all of us and return to normal gasoline prices should be welcomed as a sign of better business and employment conditions.

A WARNING

For some time past Chicago has stood before the public as unable to pay many of its current bills due to lack of tax funds. The mayor has stated that he does not know how the city will find its way out of its difficulties.

Without going into the reasons for Chicago's financial troubles, the situation is an object lesson for other municipalities. It proves that too much spending can embarrass an individual, a city, county, state or nation.

Chicago has the power of taxation to eventually pull itself out of the hole but even the power to tax can be carried to a point where the people refuse to pay. The disproportionate increase in taxation throughout the nation compared to growth in population and wealth, is a warning to ease up on raids on the public treasury.

TOWN TEAM DROPS TWO GAMES BY THE SAME SCORE 6-5

Unexpected Hurling Tactics of Patterson Baffle Opponents

Antioch's Town team dropped a 6-5 decision to Pikeville on the Fourth. The highly touted team of Pikeville was unable to fathom Patterson's deliveries and was held hitless for five innings. The local boys jumped on Brown, Pikeville pitcher, for five runs in the first inning, and held this lead for five innings, when Pikeville gained one run.

Pikeville then forged ahead, making two runs in the sixth, two in the seventh, and put across a winning run just as the teams were convinced that they would have to play off a tie.

Considering the standing of the Pikeville team in the league, the local team feels that to have lost the game by such a small margin was an advancement for them, rather than a defeat and expect to develop the type of game played in the first five innings.

Lose to Fontana.

Another 6-5 defeat was suffered Sunday by the Town team at the hands of Fontana, Wis., baseball boys.

Fontana hitters nicked Cusack, Antioch's starting pitcher, for five runs in the first two innings. Cusack was relieved by Patterson, whose pitching proved more effective, as he held the Fontana nine to two hits in the remaining seven innings. The local boys sandwiched in five runs and gave Patterson consistent support. Improvement is reported at each game.

Lake Villa Hooks Ball Game From Antioch Merchants

All Antioch's Runs Made in The First Inning on Four Hits

Antioch Merchants' All-Star team was defeated by Lake Villa Town team, 4-2, in a game of soft ball baseball at Lake Villa, Monday afternoon, when Reinbeck, pitcher for Lake Villa, struck out twelve of Antioch's heavy hitters. After the first inning the Antioch boys could not get to him.

Shunneson pitched for Antioch and hurled steady ball but was not supported in the field or at bat. Antioch boys had one big inning, the first, when they scored two runs on four hits.

CHICAGO S. D. CLUB HAS PARADE AT CHANNEL LAKE

The S. D. Club of Chicago held a big parade led by John (Dutch) Gropan and his band of Six Merry Musical Masters Saturday, July 4, at their summer headquarters at Channel lake. The parade started from Smith's slide and ended at Buck Curran's cottage. At the termination of the parade, Buck Curran, newly elected business agent of the plumbers' union, was presented with "The Little Brown Jug," a 5-gallon bottle of Mountain Valley spring water.

An 18-inning ball game was played between the Buck Currans nine and the S. D. aggregation, which the S. D.'s copped, 3-2 in the eighteenth inning.

STRIPE WRITES OF PARKING PROBLEM

Editor of the Antioch News
Antioch, Illinois
Dear Sir:

I noticed in your last week's issue that you recorded the fact that I was fined \$10 and costs for parking overtime on Madison street, in front of my office.

Will you kindly publish the following:

The refusal to pay a \$10 penalty for casually parking over one hour on Madison street opposite my office and the appeal of this fine to the circuit court is not without a very definite plan and purpose in behalf of militant organized taxpayers.

In the due course of events, the public may be presented with the views of taxpayers who really own the downtown highways which are the subject of so much sincere discussion in regard to parking, and in the meantime much interest is directed to the attempt of the Chamber of Commerce and the council to work out some practical solution of the very difficult parking problems, which if fairly solved, will secure the united approval of all concerned.

In the Edison Court local business district the merchants have provided free private parking spaces for their customers and the king of that district happens to be the largest property owner of rented stores; consequently as mayor he can enjoy a big laugh up his sleeve during the time that the downtown merchants insist that the police drive automobile customers away from the downtown curbs and to the local business districts like Edison Court.

While my real purpose is to aid the militant taxpayers, I feel justified in saying personally that I park my Ford car on the Madison street curb just outside my office because my business requires me to come and go many times a day from and to that office. My physical condition makes it absolutely imperative that I use this car in my business.

I presume other business people are like situated; however, that may be no special reason for an exception if the regulations are made practicable, lawful and reasonable and devoid of discriminations for or against anybody. Our parking problem is in its infancy, but it must be solved and it will be, but not until the interested landlords and tenants downtown look more carefully into their own interests in comparison with other districts where business people are trying to solve the parking problems in a more direct, practical manner.

R. H. STRIPE, President,
Waukegan Taxpayers Association.

Such a view of the usefulness of the telephone fails to take into account the value of incoming calls. Almost any telephone user can recall instances when a message received has been of the utmost

Think It Over

What will be the effect on the county hospital of Senator Paddock's legislation which relieves the county of the care and expense of the poor and causes the townships to care for their own poor?

If the supervisors in Waukegan, Lake Forest, Highland Park and Libertyville elect to use their local hospitals for the poor, can the rest of the townships provide sufficient business to keep the county hospital open?

How can property in a township be taxed for keeping a county hospital open, if the citizens in such townships cannot use the hospital without further taxation being paid for their poor?

At a recent politicians' picnic, how many "boners" were prepared for the people of Lake county by their trusted servants?

Was one of the "boners" legislation to shift the poor relief from the county to the township without providing tax means for the township during next winter; all to the end that the poor in great numbers must be sent to the poor farm?

Was another "boner" legislation to cut down Waukegan township's voting strength in the county board from a third to about 24 per cent in the hope that some of the assistant supervisors would resign even if the law is retroactive and consequently unconstitutional perhaps? Are some of the political birds but by their own scheme which may cause several of the old supervisors to retire by expiration of their terms of office while the newly elected supervisors of the spring of 1931 will remain in office for four years because the legislature is without power to cast them out of office after the people have once placed them in office?

Did the Lake county legislators fancy they could hamstring the militant organized taxpayers in Waukegan township where men in sympathy with the taxpayers were elected in large numbers last spring; if so let such legislators watch the growth of taxpayers' organizations in all the townships and then the creation of a Lake County League of township taxpayers' organizations which may ultimately be able to give and not take orders from a politicians' picnic?

How many taxpayers intend calmly to pay increased taxes for increases in the salaries of police and for additional police if such police do not understand and enforce a statute which says that all places where slot machines and other gambling devices are held or operated shall be taken and declared to be common and public nuisances?

Are not injunction padlocks cheaper and more effective than police or deputy sheriffs? By the way how many padlocks have been bought in the vice campaign which was recently announced with much press space?

How much should taxpayers pay to wards the salary of a public official if that official imposes upon himself the job of deciding that \$35 per barrel beer cannot be sold in Lake county on the Fourth of July but \$50 beer can? If public sentiment in a community is for beer why should taxpayers be obliged to kick in taxes towards the salary of any beer umpire, especially if such an umpire banks outside of Illinois?

Who can blame a taxpayer who wants an inventory taken of the arsenal of our peace officers to see how many revolvers they have accumulated at the taxpayers' expense during recent years; all in order that there may be a redistribution of firearms to save further purchases?

What would be the verdict of fair-minded taxpayers upon any property owner who criticizes the organized militant taxpayers if it were disclosed that such a critic has a home which has not been on the assessor's valuation books for several years? If such a critic is the head of a large factory and a leading financier would the verdict be less severe?

If it takes a man at \$165 per month and an auto with gas and tires to collect dog licenses, how much net money does a city get after a dog catcher gets his \$165, etc.?

Why not give the dogs the same liberties that a beer runner gets?

How many taxpayers are making \$150 per month under present conditions and working all the time, while police and firemen get from \$150 to \$175 per month and work far less hours than a farmer?

With taxes and special assessments, with wage increases for public servants, with the creation of new public offices, gay white ways in front of cemeteries, does it not look as if economy platforms of the politicians were rather slippery; or is it a loss of memory which must be restored at the next election?

LAKE COUNTY TAXPAYERS' NEWS

"And ye shall know the truth and the truth shall make you free"

VERCOE IGNORES HONEST INQUIRY IN CO. BOND SALE

Finance Chairman Silent Regarding Details of Transaction

Mr. Arthur Vercoe, Chairman Finance Committee, Lake Co. Board of Supervisors, Highland Park, Illinois.

Dear Sir: According to numerous inquiries that are coming to this office there are several points regarding the lump sale of the \$1,250,000 Lake county road bond issue that are not generally understood; therefore we are addressing this inquiry to you, as one being in possession of complete details in the transaction, in the hope that you will perceive the wisdom of clearing up the points not understood by the average person, and show, if you so desire, in detail how the entire transaction was handled and whether or not, in your opinion, the deal was handled to the utmost advantage to the taxpayers of Lake county.

This inquiry is not personal in any sense, but is addressed to you for the sole purpose of acquiring intelligent information that is of vital importance not only to your constituents but to every taxpayer citizen in Lake county. You may regard it as such. Also please bear in mind that it is your prerogative to use your own best judgment in the matter of handling this inquiry, as no attempt is being made to "put you on the spot," but we are making the inquiry in good faith.

Information is sought on the following points:

1. Was it not stated as propaganda preceding the election authorizing the bond issue that the bonds were to be sold as the money was needed for road building, thus saving the county the necessity of paying out needless interest money?

2. Is it true the bonds were not put up for bids? Why not?

3. Why was an interest rate of 5 per cent specified on the county bonds, when U. S. bonds at a much less rate of interest are easily disposed of? (It is well known that the recent United States bond issue was over-sold by over 7 billion dollars, and the interest rate was only 3 1/4 per cent.) Did the finance committee have in mind the receiving of a premium or bonus as a refund to the county when the rate of interest was decided upon?

4. What securities were given by the purchasers of the bonds? Can you list these as being strictly high-grade and equally as good and as profitable as the Lake county road bonds?

5. What is the explanation of the interest being "washed" away? Will the accounts always exactly balance in this regard, or does the county stand to lose?

6. Using exact figures can you show how it was ascertained that the \$108,000 premium is going to offset the interest on the entire issue? Would not the plan of selling bonds as money is needed have proved an advantage?

7. How does the Lake county taxpayer realize on this bonus or premium of \$108,000?

In brief, Mr. Vercoe, are you willing to submit figures, complete for the transaction thus far, and an estimate for the ultimate finish of the entire deal in support of the claim that the finance committee acted with sound judgment and for the best interests of the taxpayers?

Please be assured, Mr. Vercoe, that this newspaper is independently owned—Independently controlled and operated, and that it is not actuated by fear or coercion in any of its editorial utterances. It does, upon its own discretion and initiative, publish data gathered by investigators for the organized group of taxpayers, and from

Voters Reject More Bond Issues Than They Approve

Voters approved new state and municipal bond issues aggregating \$10,489,000 in June, according to the monthly compilation of the Daily Bond Buyer.

This compared with \$68,818,000 in May, \$13,414,300 in June of last year and \$53,711,739 in June, 1929. Bond issues rejected during June totaled \$12,999,000, as compared with \$12,060,275 in June, 1930, and \$53,365,500 in the same month of 1929.

PLAN PROBE OF HIGHLAND PARK BOND ISSUES

The Highland Park taxpayers intend to stick their probe into tax matters, according to the Herald Examiner, the headlines of which include, "Highland Park Club Plans Secret Probe of City Bond Issues. Involve Thousands in Overdrafts. Scan Debts. Park Appropriation of \$219,824 Under Fire."

Statistics recently made public revealed that the Highland Park rate was the highest in the state. A possible reduction in water rates is discussed.

The article did not mention discounts on the securities issued to pay for the waterworks but there is talk that the discount was large and the legality of the same is being studied, according to reports among taxpayers.

It is claimed that the securities were handled by the same firm which Highland Park's Supervisor Vercoe used in selling the Lake county road bonds which have been under the fire of the organized taxpayers of Waukegan because so many bonds were sold prior to any possible use of the money.

If a public official is advised by an inspector for organized militant taxpayers that there are indications that water is being passed at the meters of two large water consumers and that official suggests he cannot do anything because the water meters are not under the council but under the water board should taxpayers who honestly pay their water bills suffer matters to drift along, or what should be done if the high official still looks wise but acts dumb?

Its own private sources. It has an earnest desire to serve the 100,000 people residing in Lake county, and its county-wide circulation enables it to place an educational program before all residents.

The News can always serve the public without asking, "What's in it for us?" and its columns are always open to any official or taxpayer who has a constructive message of general interest. However, it "checks and double-checks" all matter submitted for publication.

It is believed that the News can be of service to the finance committee, and you, as chairman, are invited to make use of its columns, now or at any future time you desire to inform the public regarding the county's finances; without charge, of course.

Yours very truly,
H. B. GASTON,
Editor Antioch News.

July 7, 1931

Mr. H. B. Gaston, Editor Antioch News, Antioch, Ill.

My Dear Mr. Gaston:

Leaders of the Taxpayers association, having read your splendid letter to Mr. Vercoe as printed above, believe that it would be of great benefit to the tax-burdened people of Lake county if it were published as an educational item.

We are puzzled to find the reason that would cause Mr. Vercoe to refrain from giving a full explanation of his reason for handling the \$1,250,000 bond issue in the way he did. We would regard it as a recognition by him of his duty to Lake county taxpayers if he did so.

Our comment regarding Mr. Vercoe's attitude in refusing to receive the letter and his apparent reluctance to answer honest questions honestly asked should be given publicity for the benefit of those who have supported this man and to whom he is obligated as one of the leading supervisors of Lake county.

We desire emphatically to receive from any taxpayer who wishes, his or her comment on this letter and to that end we ask for the benefit of Lake county that they send their comments by mail to the Waukegan Taxpayers Association, 723 North Avenue, Waukegan, Illinois. Some of these comments will be published.

R. H. STRIPE, President, Waukegan Taxpayers Association.

3 COMMISSIONERS OR 33 SUPERVISORS FOR LAKE COUNTY?

Will the current plight of the poor in Lake county ultimately result in perdition for innumerable county politicians and township officers? appears to be a question raised by Senator Paddock's legislation which shifts the care of the poor from the county to the townships and which also cuts the number of supervisors down from forty-five to thirty-three.

If the township organization should be abandoned, the poor relief would return to the county which would have only three commissioners, instead of forty-five or thirty-three supervisors, and no longer would there be any supervisors, town clerk, township assessor, or collector.

Upon the petition of at least one-fifth of the legal voters of Lake county, the county board must call an election for or against the continuance of township organization.

If the vote is against such continuance the township organization ceases as soon as the county board is elected and qualified and all laws relating to counties not under township organization shall be applicable to the county the same as if township organization had never been adopted.

When the township organization shall cease, a special election is held for three county commissioners. When the township organization is discontinued, the records of all the towns are deposited in the county clerk's office and the county commissioners have the power to close all unfinished business of all the towns and sell and dispose of any property belonging to a town for the benefit of the inhabitants as fully as might be done by the towns themselves and to pay all the indebtedness of any town and cause the amount of the same to be levied upon property in the town.

The three commissioners would get \$5 per work day and 5 cents a mile traveling expense, just the same as the present forty-five supervisors. The matter appears to be largely a subject of common sense and dollars and cents which will have to be checked up carefully before the voters can judge which form is the most economical.

The Chicago press claims that several assistant supervisors are starting an organization to defeat Senator Paddock at the next election and quotes the opinion of County Clerk Hendee to the effect that half of the county board must step out.

One explanation of the statute is that according to the law, the assistants elected for four years must meet six months before the next election and determine by lot who is to withdraw in 1933. This is said to be causing resentment in townships which face reduced representation.

Senator Paddock informed a head executive of the organized taxpayers that his proposition was not retroactive, but Mr. Hendee's interpretation apparently is that many of the board must resign the office to which they were elected for a definite term, or in other words the legislature in effect is throwing them out of an office to which they were elected by the people, and before the term of such election has expired; all of which means that the Paddock act seems retroactive.

The Constitution provides that the legislature cannot pass local or special legislation regulating county and township affairs and no ex post facto law shall be passed.

The Paddock legislation is very difficult for a layman to understand from a reading of the bill and some wonder if anybody knows what the law really means. While its terms appear general it is alleged that its sole purpose is to affect conditions in Lake county, and if that is true, of course it is in fact local and special legislation.

If any supervisors refuse to resign prior to the expiration of the term for which they were elected, it is not yet explained what anybody could do about it; perhaps the situation may be put up to the attorney general for an opinion as to whether it really means anything.

Some claim the purpose of Senator Paddock is to cut down expenses of the board and, consequently, many may be ready to adopt his suggestion in principle and put it drastically in practice by cutting the board down to three commissioners in lieu of thirty-three supervisors.

Probably the relative costs will be discovered and published by the advocates of the economy in board costs.

Farmer Wants Coolidge After Herb Saves Europe

Views of a Crossroad Philosopher on War Debts, Politicians, Follies, Fakes, Failures, Taxes, and Crisis for Unemployed.

Is this not a great country, this land of the free and the home of the brave; also of pacifists, debt cancellationists and purchasers of European gold bricks?

In American politics, a man can be a Democrat in Wilson's cabinet, feed white bread to Europeans who never had seen white flour, be elected a Republican President, and then let thousands, yes, millions, want for a crust and a job.

A man can be a total business failure, go into politics, get elected, draw a fat salary and waste the taxpayers' money on foolish hairbrained extravagances.

Congress and state legislators meet, spend tax money for light, heat, clerical hire, trips, publicity, waste time, demoralize legitimate business, and after it is all over two 16-year-old boys and one old man could have accomplished more good in one-third the time.

A man who never saw a ship may be appointed head of a shipping board and then give orders to men who have followed the sea for a lifetime.

A Wall street "biggest shot" may be appointed a secretary and go to Europe where is put over a moratorium or a delay in the cancellation of the war debts, while in America banks fail, jobs are scarce, wages are declining, and millions are in distress.

Charity begins abroad first, America last.

The capital of the United States is supposed to be at Washington. The financial brains running the country are in Wall street. Suspicions are that brains of the debt cancellation plans are in Chicago.

California claimed Hoover but is quite silent now about it while a fuss is made over Will Rogers, an adopted son from Oklahoma.

Our President goes fishing, Mellon goes to Europe, Stimson follows, business gets worse and the Wall street grab better on paper, capital is timid, jobs get fewer, the people hungry and mad, the rich richer and the poor more miserable.

While Coolidge sells advice, Will Rogers' good natured ridicules Wall street financiers who offer no moratorium or cancellation of debts owed by the American farmers and land-lords.

Taxes are overdue, mortgages foreclosed, banks are failing, and the little fellow gets in a jam and loses his life's savings while Hoover and Mellon keep plowing away on a plan to save Europe while the United States is sinking.

Save Europe we must and let America bust.

If the people cry for a leader, use the motto on the dollar, "In God We Trust."

Politicians try to straddle salt creek on the wet and dry issue but as it gets bigger they slip and finally are all wet while voting dry.

Bootleg racketeers and crooked politicians make a quick fortune in the booze business.

The stockmen raise meat and sell at a low price.

The United States hires the head of a huge farm machinery trust and goes into the grain business and loses.

The packers buy livestock and prosper.

The jobless walk the street and are starving while the picture shows are crowded and the groceries, clothing stores and churches are emptied for the golf links, provided by taxation.

Hip liquor and highballs short skirts and highballs, no socks, cigarettes, road houses and country clubs are the standards of America's cod fish aristocracy.

However, our country is sound in the last analysis. 90 per cent of the American people are loyal, home loving, patriotic Americans.

Why must these people have to endure the wretchedness of an existence brought about by a bunch of "penny politicians," "clothespin aristocracy," and "Get Rich Quick Wallingforders"?

Shall this great America submit to the European demands that their debts to the United States be cancelled in order that European business may prosper at the expense of ours?

Shall Americans suffer want and hunger to feed European peasants?

For what national patriotic business reasons are Mellon and Stimson in foreign lands?

Is there an unholy scheme of Wall street to protect private loans at the expense of the American taxpayers?

When will all Americans wake up?

The United States faces a crisis today—its greatest.

America has been other troubles; however, there was a Washington, a Lincoln, a Roosevelt, and a Coolidge to save the country. Have we such a man today?

Must we draft Calvin Coolidge to get and keep our country out of meddling in European affairs and prevent Uncle Sam from becoming a collector for private international banks?

Farmers of America, think over the follies of current human nature and talk facts out of the fakes and then talk to whomever is supposed to represent your views in governmental affairs.

The American farm is the backbone of our existence and that backbone should be kept very stiff and hard while our willow-like politicians are bending low before the hot air from the foreign diplomats who are doing a good job at frisking Uncle Sam of his tax pocket book which so many have to fill with hard work.

Retrenchment Wave Darkens Danville

Danville, Ill., July 6.—Danville will be dark after 1 a. m., it was announced today. To cut the city expenses the street lights will be turned out. Fire and police forces have already been cut. The employees in the health and street departments will begin at once on a 5-day week.

On Monday, June 29, Arthur Holm, Taxpayers association addressed the Waukegan city council in which he objected to their adding three new policemen to the Waukegan force, stating that by doing so the idea of economizing was being ignored. Waukegan citizens were greatly interested to learn that at the meeting of the Waukegan city council on July 6 it was decided to withdraw the ordinance creating the new police jobs until the finances of the city were in better condition.

"God" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 5. The Golden Text was, "God is the Lord, which hath showed us light" (Psalm 118:27).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Great is the Lord, and greatly to be praised; and his greatness is unsearchable. One generation shall praise thy works to another, and shall declare thy mighty acts. Thy kingdom is an everlasting kingdom, and thy dominion endureth throughout all generations" (Psalm 145:3, 4, 13).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "With one Father, even God, the whole family of man would be brethren; and with one Mind and that God, or good, the brotherhood of man would consist of Love and Truth, and have unity of Principle and spiritual power which constitute divine Science" (p. 400-470).

How to play Bridge AUCTION or CONTRACT by Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGE"

Copyright, 1930, by Hoyle, Jr.

ARTICLE No. 13

Auction Bridge is certainly becoming a popular game, so much so in fact that many of the shows are featuring a rubber of bridge as part of the background for their society dramas. Now one of the best sellers, Agatha Christie's "Seven Dials Mystery," uses bridge as an introduction to one of the thrilling incidents of the book. The dialogue is very amusing and so typical of the average game that it is well worth repeating.

"Bridge was still proceeding—with a slight difference. Sir Oswald was now playing with his wife and was conscientiously pointing out to her the mistakes she had made during the play of each hand. Lady Coote accepted reproof good-humoredly, and with a complete lack of any real interest. She reiterated not once but many times: 'I see, dear. It's so kind of you to tell me.'"

"My dear Maria," rose the voice of Sir Oswald in mild irritation, "I have told you over and over again not to hesitate when you are wondering whether to finesse or not. You give the whole table information."

"Lady Coote had a very good answer to this—namely that as Sir Oswald was dummy, he had no right to comment on the play of the hand. But she did not make it. Instead she smiled kindly, leaned her ample chest well forward over the table, and gazed firmly into Gerald Wade's hand where he

sat on her right.

"Her anxieties lulled to rest by perceiving the queen, she played the knave and took the trick and proceeded to lay down her cards."

"Four tricks and the rubber," she announced. "I think I was very lucky to get four tricks there."

"Lucky," murmured Gerald Wade, as he pushed back his chair and came over to the fireplace to join the others.

"Lucky," she calls it. That woman wants watching."

"Lady Coote was gathering up notes and silver."

"I know I'm not a good player," she announced in a mournful tone which nevertheless held an undercurrent of pleasure in it. "But I'm really very lucky at the game."

"You'll never be a bridge player, Maria," said Sir Oswald.

"No, dear," said Lady Coote. "I know I shan't, you're always telling me so. And I do try so hard."

"She does," said Gerald Wade, sotto voce. "There's no subterfuge about it. She'd put her head right down on your shoulder if she couldn't see into your hand any other way."

"I know you try," said Sir Oswald. "It's just that you haven't any card sense."

The following hand was played in a New York Club the other evening. Look it over and plan your play so that you can score game against any defense.

AUCTION BIDDING:

No score, rubber game. Z dealt and passed. A passed and Y bid one heart. B passed, Z bid one spade and all passed. A opened with the ace of clubs and, when his partner played the deuce, shifted to the jack of diamonds. Z won this trick in Y's hand with the king of diamonds and led a low heart. B played the ace of hearts and returned the club. How should Z now play the hand so that he will score game against any defense? Before reading further, figure out your own play.

CONTRACT BIDDING:

Z pass; A pass; Y one heart; B pass; Z one spade; A pass; Y four spades; all pass.

Solution: The problem for Z in this hand is to get all of the plain suits out of his hand and A's before the latter is thrown in the lead. Z should win the

When somebody comes along and asks you, "Well, is it hot enough for you?" what are you supposed to say to them?

Yes, the women of today are more heroic than the men—any Antioch shoe dealer will tell you that.

Summer's here all right. There's a great big fly buzzing and buzzing around our desk. Do you have your screens on?

It seems that a sure way to bring rain is for us to wash our car.

We wish we could distribute our coal business over the full twelve months. But to do that, we would have to change the whole climatic plan, and we're not going to attempt that! However, we do advise getting your coal order in early. Thus you can avoid the last-minute rush.

Our hardwood flooring is especially fine this season. It's free from knots and dark spots, and it's so easy to clean that it will look nice as long as your house lasts. Come in and let us give you an estimate.

Milt Taggart at Twin Lakes Ballroom

If you've ever wanted to see the man who wrote "When It's Springtime in the Rockies," and if you've ever wanted to dance to good music, be sure to visit Twin Lakes Ballroom. Milt Taggart and his orchestra, famed musicians and entertainers, are there in person.

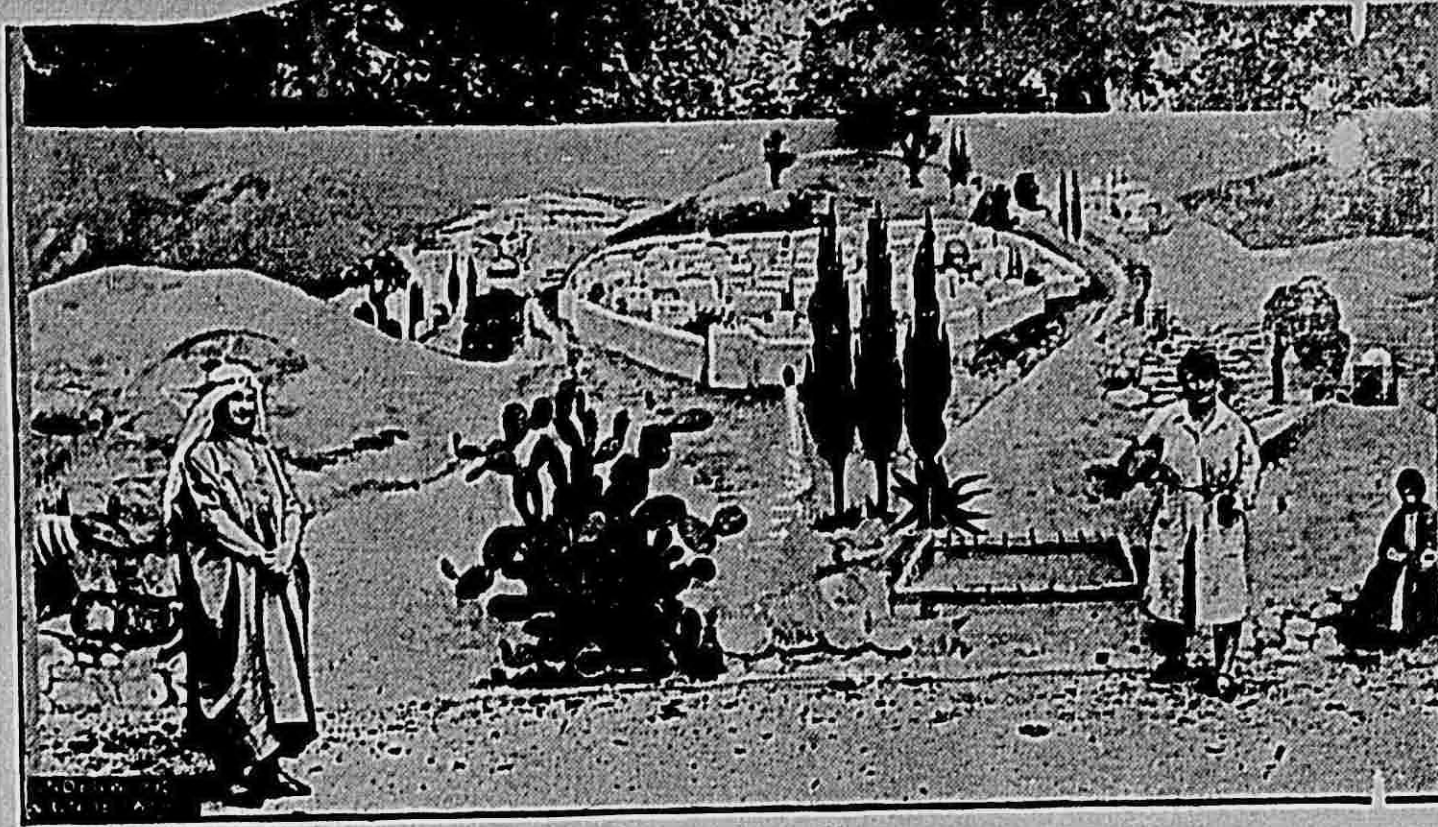

Taggart, besides having written the "Rockies" song which rocked the country, has written "Sagebrush Blues," not yet released, "Starlight and You," "When I Look to the West," "Golden September," "Sleepy Tennessee," "Song of the Silver Dollar," and "The Girl in My Old Home Town."

All of his songs, like his music, have a "homey" air about them. That is probably because Taggart was raised in a state which is noted for its friendliness and hospitality. He was born in Salt Lake City, and attended the University of Utah.

Patrons of the Twin Lakes Ballroom are assured of a good time when this smiling musician and highly intelligent director steps up to the stand and starts his music.

Famous Flier in New Role

In the belief that aviation will advance only as rapidly as the discoveries of petroleum research can provide more suitable fuel for airplane engines, Major James H. ("Jimmy") Doolittle, famous flier, has joined the chemists of the Shell Petroleum Corporation in their search for better aviation fuels. Major Doolittle, one-time army flier, is now director of aviation for Shell. He holds degrees of Master of Science and Doctor of Science and was awarded the Harmon trophy for his successful experiments on "blind flying" to combat fog. He is shown in the motor testing laboratory at the Shell refinery at Wood-river, Ills.

Former Cross Lake Man Has Unique Camp In Wisconsin North Woods

J. W. Johnson Establishes Elaborate Resort Near Tomahawk

Johnson's Deer Trail Camp, newest resort in the Tomahawk (Wis.) land of lakes, was conceived, planned and put into operation two months ago by J. W. Johnson, former resident of Cross Lake and Salem, who has many friends and acquaintances in this locality.

The new resort is located on Lake Nokomis 9 miles from Tomahawk, north of Heafford Junction, on the shortcut between highway N and U. S. 51.

Deer Trail Camp is organized and will be operated according to a plan that is unique in the north country, says the Tomahawk Leader. The proprietor has embarked upon what is probably the most ambitious and elaborate resort program ever initiated in this section.

Children's Playground Free.
The resort property comprises 320 acres, with water on three sides and a trout stream running through the center. The building program calls for fifty-five cottages, twenty-four of which are already completed. Every cottage is numbered and equipped with all furnishings. Free lights and fuel are provided. A burglar alarm has been installed in every cottage, and the grounds are patrolled day and night by watchmen. The resort has its own lighting plant, and a sewage system.

A tourist camp-site has been provided, which is protected by a deputy sheriff, day and night, and a section set aside for picnic grounds which are available free of charge to all who care to make use of it. A children's playground, equipped with a merry-

go-round, sand boxes, teeters, etc., is in operation. This is also free.

Building Railroad Station.

Among the unique features of the camp is a zoo. Mr. Johnson is importing bear from the Rocky Mountains and the zoo will also contain porcupine, flying squirrels, monkeys, etc. Tennis courts and a rifle range have been constructed, and if the ground is found suitable next year, an 8-hole golf course will be built.

The resort is a miniature self-contained town, since it contains a store and gas station and a barber shop. The Milwaukee road is building a station for passenger service. Fire extinguishers have been placed at strategic points throughout the camp.

Conceived Idea on Tours.

The resort specializes in fish, chicken, and rabbit dinners, the rabbits being raised right on the grounds.

Mr. Johnson was formerly a public lecturer, but throat trouble forced him to retire, and it was while on tours with his wife and three children that he first conceived the idea of a completely equipped, year around family resort at reasonable prices. Deer Trail Camp is the culmination of his dream, and present indications point to complete success for the novel venture.

Vacationists have diversified ideas of what a resort should be: a place for rest, recreation, fishing, boating, swimming, hiking, riding, sight-seeing trips to lumber camps, Indian reservations—all right in the midst of a land of crystal clear lakes and in the heart of virgin forests. Deer Trail Camp offers all that—and more.

Mr. and Mrs. S. Boyer Nelson and sons, and Mrs. and Mrs. H. B. Gaston and sons, and Raymond Swartz were guests of Mr. and Mrs. Johnson at Deer Trail Camp over the Fourth.

Mrs. Frank Slazes Stricken With Heat at Laundry; Recovers

Mr. and Mrs. Charles Hamlin and Mr. and Mrs. Lester Hamlin enjoyed an auto trip over Saturday, Sunday and Monday, and were as far north in Wisconsin as Crandon. Rhineland and Ladysmith, also visited. Mrs. John Cribb and Ben Cribb at Prairie du Chien Monday. Mrs. Cribb is improving slowly in health.

Mrs. Frank Slazes was overcome with the heat Tuesday of last week, while she was doing the family washing. She fell to the ground and was picked up by a neighbor who called a doctor. She recovered nicely.

Mrs. Alice Howard, who has been in Waukegan for some time, has been a guest of Miss Mary Kerr the past week.

Mr. and Mrs. Harvey Myers and children, Harriett and Howard, are enjoying a two weeks' vacation with relatives in southern Minnesota and northeastern Iowa. They made the trip in their auto.

Mrs. Nettie Frazier was called to Alabama last week by the very serious illness of her sister who lives there. Her brother, Mr. Paddock, made the trip with her by auto.

Mrs. Grace Millar has been very ill at her home on Oak Knoll Drive, but is now able to be up.

Lloyd Barnstable, who was accompanied by two of his classmates of

Antioch high school, enjoyed an auto trip to Tennessee and Kentucky last week. They were gone four days and had a most delightful trip with no accidents.

John Cribb visited his wife at the hospital at Prairie du Chien over the Fourth.

Mr. and Mrs. Frank Wood visited relatives in Evanston early last week. During July and August the Royal Neighbors will hold but one meeting each month, which will be on the last Tuesday evening of each month. Members please take notice.

Mrs. J. J. Barnstable will entertain the Ladies' Aid society at her home next Wednesday afternoon, and everyone is very cordially invited. The ladies and the volunteer fire department are planning a carnival to be held late in the month. Details will be given later.

Mr. and Mrs. Charles La Meer and Mr. and Mrs. Leslie Fitchow, of Bristol, Wis., called on friends here Thursday evening.

Hot weather of the last two weeks has been responsible for the death of many fish in our lakes. Loads of carp were hauled from Slough lake, near Sand lake, and even in Fox lake, where the water is deep and cool, many pickerel and other fish were found dead in and near shore.

Mrs. Carrie Kerr, who has been a guest of Mr. and Mrs. James Kerr, has gone to Council Bluffs, Ia., to visit another daughter. Her daughter and husband, Dr. and Mrs. Edwin Wegner, have been visiting at the Wegner cottage at Sand lake, and Mrs. Kerr has been with them.

Icebox Preserves
Purity of FoodsExperts Advise Reserving
Ice Chamber for Ice,
Not Food

There is nothing from a baby to a flagpole, that does not require care of some nature. Last week a brief resume of the proper compartments of the refrigerator in which to place various kinds of foods was given. Today the care of the icebox will be discussed.

It is supposed, to begin with, that the refrigerator is placed in a cool and protected position as is compatible with convenient service, that it is easily accessible to the ice man, that it stands level on the floor, that it is either attached to a permanent drain or has a capacious drip pan, and that it is clean, and full of ice.

No item is of greater importance than keeping the refrigerator well iced, according to the Household Refrigeration Bureau. The volume of ice should never be allowed to fall below one-half the capacity of the ice chamber. If the ice gets too low the temperature rises, the walls of the refrigerator get warm again and when new ice is put in it has to do double work. This is not only a waste of ice, but the temperature may be too high for successful food conservation.

The ice chamber is built to contain ice and not food. Every inch of ice surface is needed to cool and clean the passing air, and for this reason food is not put in the ice chamber.

Keep Clean and Dry.
The bacteriologists say and they say truly, that molds and bacteria grow best when they have plenty of moisture. Therefore, keep the walls and shelves dry. Use a cloth which is clean and dry and wipe off any moisture that may collect on the walls and shelves. When an accident occurs, be thorough in removing the spilled material, washing and drying the shelves and walls at once. A very small spot, with just the right bacterium or mold, may make a very big and unpleasant odor.

Once a week wash the refrigerator thoroughly with a cloth wrung out of cold water in which salt soda (about one tablespoon to four quarts of water) has been dissolved. Wipe with a clean cloth. Work as rapidly as possible to keep the entrance of atmospheric heat at a minimum, so saving ice.

Once each week pour strong salt soda water down the drain to remove the slime which may collect there. This is a real preventive of overflows in the refrigerator.

Do Not Wrap the Ice.
Do not wrap the ice in a paper or a blanket; rather, if necessary, throw a blanket over the entire refrigerator. Actual contact between the air to be cooled and the ice surface is necessary. Also the film of water on the melting ice absorbs the odors which then go down the drain pipe. If the ice melts too rapidly it is because the refrigerator is not well insulated.

There is no need, of course, in emphasizing that dirty things must be kept out of the icebox, the doors kept tightly closed except when placing or removing food, which should be done as quickly as possible, and that food should not be placed in the icebox until it is cool.

Handmade Jumpers
and Jackets Gayly
Parade this Summer

No one likes to dress fussily for hot weather, even though, on occasion, it becomes necessary. For afternoon wear and general wear, however, one is permitted to don whatever approaches nearest her ideal of coolness and comfort.

For those who find time to indulge in the revived art of sewing, suggestions as to smart, yet easily made, frocks are detailed.

It is more than smart these summer days to possess simple frocks hand-made with a dainty touch of embroidery or splash of applique. Then, too, there are the plain jumper dresses and the sporty frocks in contrasting colors.

A shantung or linen sleeveless dress of plain white or ivory, with a crisp skirt distinguished by its inverted plaits, and a bit of ribbon or lace to relieve the square neckline, may be worn with a colored short-sleeved, belted jumper of jersey or cotton sude in brown, green, dark blue, orange or red.

Or, if one preferred, the frock might be made of white cotton mesh or of a dull silk crepe. Of course, each person knows in which colors she appears most charming, and so should be able to choose a combination of hues that will cause others to say, "They were made for her!"

The Charm of a Salad
Depends On Its Dress

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company

SALADS, once regarded as mere accessories to the menu, at last have come into their own. Charming in appearance, delicious and absolutely essential to the diet, salads now are one of the main courses on the family table.

Most of our delightful salad dressings are variations of a famous three: (1) French Dressing—which is especially suitable to serve with greens and fresh vegetables or fruits; (2) Mayonnaise Dressing—for more substantial luncheon salads of eggs, meat or fish; and (3) Cooked Salad Dressing—for those who do not care particularly for the dressings containing salad oil.

The ways in which these main types of dressing may be varied are almost numberless. Merely by adding one or more simple ingredients to the foundation, one may obtain a dressing suited to any particular type of salad or individual taste. Of course, the quality of the ingredients used is of the utmost importance. And more especially, since their real purpose is to bring out the rather neutral flavor of the salad greens.

Remember this when preparing salad dressings from this list of principal types, with their several variants!

FRENCH DRESSING: 1 teaspoon sugar; 1 teaspoon salt; 1/2 teaspoon paprika; few drops onion juice; 5 tablespoons Pure Vinegar; 1/2 cup Spanish Olive Oil.

Put the salt, sugar, paprika, onion juice, vinegar and olive oil in a jar. Cover closely and shake the dressing thoroughly. It is then ready for use. Always shake well just before using.

Variations of French Dressing

Chiffonade Dressing: 2 tablespoons chopped parsley; 1/2 cup chopped onion; 1 hard cooked egg, chopped; 1/2 cup chopped cooked beef, well drained.

Ketchup Dressing: Add 1/4 cup Tomato Ketchup to the foundation recipe, and mix thoroughly.

Variations of Cooked Salad Dressing

Whipped Cream Dressing: Fold 1/2 cup sweetened whipped cream into the foundation dressing.

Savory Dressing: Add 1/4 cup Indian Relish to the foundation dressing. This is excellent to serve with meat or fish salads.

Whipped Cream Dressing: Fold 1/2 cup sweetened whipped cream into the foundation dressing.

Parisian Dressing: 2 tablespoons pepper; 2 tablespoons chopped red pepper; 2 tablespoons chopped celery; 1/2 tablespoon chopped onion; 1/2 tablespoon chopped parsley.

Mix thoroughly, and add to foundation recipe.

MAYONNAISE SALAD DRESSING 1/2 teaspoon Prepared Mustard; 1/2 teaspoon salt; 1/2 teaspoon pepper; 1/2 teaspoon paprika; 1 egg yolk; 2 tablespoons Pure Vinegar; 1 cup Pure Olive Oil.

Mix the mustard, salt, pepper and paprika. Add egg yolk and mix well, then add 1 tablespoon Vinegar. Add the oil gradually, beating constantly with an egg beater or silver fork. As the mixture thickens, add remainder of Vinegar.

Variations of Mayonnaise Dressing

Russian Dressing: Add to foundation dressing, or a jar Mayonnaise Salad Dressing, 1/3 cup Chilli Sauce. Serve over head lettuce salad, hard cooked eggs, meat or fish salads.

Thousand Island Dressing: 1/2 cup Chilli Sauce; 2 tablespoons chopped green pepper; 2 tablespoons Stuffed Olives, chopped; 1 chopped, hard cooked egg; 1/2 cup Mayonnaise Salad Dressing.

Mix mustard, salt, sugar, flour and paprika together. Then add well beaten egg and mix until smooth. Add milk and vinegar and cook over hot water until thick, stirring constantly. Remove from fire, add butter and cool.

Variations of Cooked Salad Dressing

Harmonious Color
Scheme Essential
In Formal DinnersPure Linens, Real Flowers
and Good China Form
Background

Achieving an artistic color combination in food and service is one of the problems and delights of the modern hostess in planning a formal dinner. If that "My dear your table is simply beautiful!" is not forthcoming from her guests, she feels that her efforts have failed to attain the goal.

Let's start with the tablecloth. If one insists on the modern vogue for color in cloths, she necessarily decides just how the table will appear, down to the last olive. If the china, glassware, table decorations and food clash with the tablecloth, resulting in a chaotic display of color, all effect of harmony is ruined. Use of colored cloths with the proper accompanying articles, however, may mark the hostess as a woman of unusual skill and artistry. Nothing as yet has replaced white linen or lace cloths as "the thing" for formal receptions.

Flowers for Center Decoration. Conspicuousness in china is to be avoided unless the new attractive black-and-white modernistic type of dinner set is used. Crystal or glassware of pastel tints are often combined with dinner sets.

Then the favors and place cards—which may be of glass, paper, or edible material—add the last touch and allow much room for originality and striking bits of harmony.

There are rules governing the selection of foods to insure perfect blending of colors but more on this subject will be discussed at some future date.

TOPPY'S TRAVELS

Synopsis: Toppo leaves home to follow his canary. After many adventures, Mr. Frog and Toy, the dewdrop, cause the Cushions to fight the Pillows, who have invaded the land of the Cloud-Queen. The Pillows, however, seem to be winning from the Cushions, so Toppo sets forth to train an army of Cloud-people. He gets lost but meets a falcon who rescues him from a Pillow guard, and shows him the way to Mist valley. Here he finds the Cloud-army and Toy. Continue the story—

Toppo introduced Toy to his new friend, the falcon. Toy immediately backed away in fright, but the falcon said gently, hiding his hurt pride, "I'm very glad to meet you, Toy, and I hope we shall be friends."

Toy looked fearfully at the bird and then at Toppo.

"Toy, this bird has saved my life, and showed me the way to this valley when I was lost. He has promised to help us, and I think that you and he will make a fine detective pair," Toppo told him.

"Yes, you are so tiny that I could easily hold you in my claw while I flew, and I could take you swiftly to any place you wanted to go. We could fly into the land of the Cushions and learn what is being done there, while Toppo is training the army," the falcon told him eagerly.

Toy came forward. "If you saved Toppo's life, then I must be friendly. But birds always want to eat me—"

He could not rid himself of his terror. "I shall never try to harm you, Toy," the falcon reassured him.

The little dewdrop looked up at the bird. "Then pick me up and give me a ride," he said impulsively.

The big bird laughed, lifted the tiny dewdrop in his claw and flew straight up into the sky. "Oh, stop, stop!" Toy begged.

"What is the matter?" called the falcon in alarm.

"You must help me, quickly, or the sun will melt me," Toy said breathlessly.

To the bird's great dismay the dewdrop seemed to be actually shrinking. He hastily buried the claw holding Toy in his feathers and floated down to earth.

Toy was very pale as he ran to rest against a cold stone.

Toppo was sorry when he learned what had nearly happened. "I should have told you that Toy or any of the Cloud-people cannot bear the sun," he said. "You see, down here, in this shady, misty valley, the sun does not do much damage. That is why I must train the soldiers at night."

The falcon seemed incredulous, but said that he would remember.

The next night, after a council meeting had been held, it was decided that Toy and the falcon should leave immediately for the land of the Cushions.

"You must come back about every four days and give us a report," Toppo bade them, as they left.

Then he turned to the Cloud-people and asked, "What kind of weapons do you use?"

The silent, rain, frost, hail, mist, and snow replied, "We are our own weapons. We surround the enemy and push them into a trap. Then we force them to our terms."

"Of course!" cried Toppo. "Fine. Then we must practice attacking and surrounding an imaginary enemy. Let's go!"

A Boy is Manageable
When His Interest
Is Found

HAS YOURS A HOBBY?

Everyone knows one or two youngsters in whom no traits of worthiness are apparent. They are regular little roughnecks, discourteous, headstrong, and, while not actually bad, are very disagreeable and hard to handle. During this vacation it may be that one of your own boys has developed characteristics which have puzzled you—cut away from the discipline and interests of school life, he has suddenly run wild, and you have been at a loss to know how to cope with him.

It is said that there is good in the worst of us, and bad in the best of us, and this truth has been verified over and over. Also, nearly everyone, whether their companions are aware of the fact or not, has a decided interest in something, although that something may be for the moment unattainable.

The following story illustrates this and may suggest a solution to others.

The Eternal Gloom.

"Yeah—it's a great theory. But I don't believe it's practical. Most boys may have some fineness of expression, some delicacy hidden way down in their heart, even some tenderness, but this kid is nothing but a rough and tumble reckless roughneck. If he has any of what you call 'heart expression' I don't know how he'd show it. He couldn't sit still long enough. That's Gordon Long."

"Let's talk it over with him. We may make some discoveries."

A few hours later the boy was seated before the two men.

"What do you like to do, Gordon?" they had asked him.

His noncommittal answer had not been especially significant.

Finally the older man asked him, "Do you like music?"

"Naw—" the boy paused. "Not this highbrow stuff."

But the man before him had caught a glimpse of something. He had seen a first gleam of light.

"You don't like highbrow stuff, Gordon, but you rather like to hear music that has a happy swing to it, don't you?"

The boy's face lit up.

"Yes—and I can play a cornet—a little."

The men impulsively exchanged quick glances.

"Gordon, I'd like to hear you play. Will you bring your cornet with you sometime?"

"I'll get it now—" and the lad was gone.

"That boy!" the younger man exclaimed. "You must be right. I guess there is some gentleness and tenderness and fineness in every boy's heart. Certainly if there's room for music in that roughneck's soul I guess it's everywhere."

—And somehow Gordon Long's happy eager smile had a new meaning from then on.

CHANNEL LAKE COUNTRY CLUB NEWS

Our golf course over the past week-end was the scene of a most active time. The course is in a most excellent condition and almost every member, as well as many guests, took advantage of the perfect weather which prevailed over the holiday time.

The usual card party was held on Tuesday and about twenty-four enjoyed the delightful luncheon prepared by Mrs. Herbert Vos, Mrs. George Bayrd, Mrs. Ernest Brook, and Mrs. Henry Paulson. The prizes were awarded to Mrs. Herman Sandell, Mrs. Paulson, and Mrs. Bert Grice. Others present included Mesdames Cooper, Gray, Reitz, Van Pelt, Branson, Mills, Elsmann, Hashman, Gorsuch, Warriner, Johnson, Rosling, Swanson, Simons, Tankersley, Arms, Gallauer, and Laflin.

The first dance of the season, which was postponed from the Fourth, will be held next Saturday night, beginning at 9:30, Daylight Saving Time. The chairman, Mrs. Carl Gallauer, promises good music, good food, and a good time generally. Early reservations would be greatly appreciated, and can be made at the club house, or with Mrs. Gallauer.

Mrs. Carl Branson, who, since her marriage last fall, is living in Providence, R. I., is spending most of the summer with her mother, Mrs. Herbert Van Pelt.

Mrs. Charles W. Laflin is entertaining the members of the board of the General Henry Dearborn chapter, D. A. R., Friday of this week. A past regent, Mrs. Wm. C. Fox, is also a guest of Mrs. Laflin's for Thursday and Friday.

City Dwellers are Drawn to Cooling Antioch Lakes

Nell Hurley in The Oakparker

Among other things, the township of Antioch boasts an endless stream of lakes, countless resorts, amusement places, and golf courses. The townspeople, experts by this time in dealing with the summer traffic, have built a grand place for the vacationer to spend a day, a week-end, or the entire summer.

This is the writer's conclusion after spending a most delightful, cooling, and refreshing time wandering throughout the maze of lakes, traveling over well-built roads, and playing his usual duffer's game of golf on the Chain-O-Lakes course.

For it was to Antioch, the mother town, and her brood of adjacent resorts that the writer was chased for material to place in this composition. The Oakparker, always first with new features, is continuing its policy to give villagers all of the summer-time news about their neighbors.

"A Grand Summer Spot." And if you will list to the words of an enthusiastic vacationer you will believe the writer when he says that Antioch is a grand place to spend the summer hot days.

In our bewildered wanderlust throughout the multitudinous lakes, we stopped at the shores of Lake Marie, where we engaged in conversation the genial Mrs. Robinson and Miss Dressel, proprietors of Dressel's House, finest of the family summer homes.

And the hotel register in the front room shows the esteem with which Oak Park persons hold their establishment. The Majors, the Rileys, the Camerons, and the Bishops, are but a few of the villagers who journey there regularly.

Then there is the Otis hotel, right next to Pat Joyce's summer residence, which is noted for excellent boating and bathing. The writer, who spent some time on Fox lake on another occasion, will recommend the Otis for discriminating persons. Its location makes it ideal for cool breezes and a distinct summery atmosphere.

Rich in Amusements. Antioch is rich in amusements. There is the golf course Chain-O-Lakes which furnished entertainment aplenty for your sun-burned correspondent. The course is sporty, rolling just enough to be stiff, and is well-kept.

The writer's good friend, Mr. Swanson, runs the town motion picture theatre. It has always been surprising to us how the talkies could reach the outlying town of Antioch long before they hit Chicago's loop. But Mr. Swanson does it—and his patrons swell the sides of his establishment nightly.

For meals we enjoyed the dollar chicken dinners served at the Manor House, where on route 21 Betty Mortenson has erected her home-like restaurant.

Nightly, several miles from each other, two bands blare syncopating music. Our school-day friend, Tweet Hogan, holds sway at the Channel Lake Pavilion, where with a slow, easy melody, his Chicagoans play for the resorters.

Night Amusement. It is perhaps these nocturnal excursions that are remembered most about the lakes. The pavilion is ideally situated right at the entrance to Channel. Homer Finch runs it—and his reputation for picking good music is well-known throughout all resort towns.

Further from the breeze of the lake, yet situated along the main highway, stands the Antioch Palace, now under the personal management of Mickey Rafferty, who believes more than anything else in good music.

As a result of this belief the Palace will entertain on July 12th, Duke Ellington. Right now Bob Peary and his Champions are furnishing the customers plenty right music.

The writer's opinion that Antioch is a grand place to spend the summer is fortunately backed by a bevy of enthusiastic villagers, who have been on the receiving end of the cool breezes for many a moon. Indeed, Oak Parkers have played a strong part in building the spot as a summer resort.

Oak Park People Active. Take, for instance, the family of W. N. Kettistrings, residing otherwise at 1111 Superior street, who are one of the oldest settlers in Oak Park—and also one of the pioneers of Channel lake. Then there are the Bretts. Mrs. F. M. Brett once told us, when in the course of our wanderlust we talked of things locally, that she could recall the time when the shores of Channel lake were merely cow pastures and the main street was "Lover's Lane."

But that has changed and now villagers are as common along the byways of the chain-o-lakes as on Oak Park avenue. Those who keep an active interest in the town are to be found everywhere.

H. H. Bradley, 503 North Scoville, has been spending a great deal of time thereabouts, as has Dorrance William, 121 Washington boulevard. Wilks B. Gilmer is an enthusiastic Antioch fan, but he winters, summers, and falls at 120 North Oak Park avenue.

Henry Oetting, 837 North Kenilworth, is to be heard from when one writes of local people along the chain-o-lakes. Dr. W. E. Potter, 715 Lake street, is another villager who has been making his summer time excursions to the lakes along route 21. Mrs. W. C. Scott, 944 Clinton, is seen often along Main street.

Hundreds Throng Lakes. Margaret Utesher, 1020 Maple, is a villager who has been keeping her interest in Antioch alive, not only by spending time there, but by subscribing for the Antioch News.

Fred Wilt and family have been regular residents of Lake Catherine for years. They live at 611 South Ridge land when not cottaging along the shore. E. E. Wilson, 319 South Humphrey, likewise is an old-timer at the resort.

The Antler's Hotel, town hostelry, boasts of Oak Park guests aplenty. Among the recent roster we find the names of R. Kegley, M. Murphy, J. Sours, and George Flick.

Harry Hasty and his wife, both Oak Park people, have not felt the depression, they told your correspondent. Rather, they have all of their cottages rented on Bluff lake. Among the Oak Parkers summering there are Walter Riekey, H. D. Herron and family, and Earl Lutz.

Oak Park Campers. Camp St. Joseph, operated by the Bishop Quarter school of Oak Park, is going in full swing at Lake Petite. Edward and Leonard Cross, River Forest youths, are acting as counsellors this year and are supervising the fifty-five boys who are already browning up nicely under the blistering sunshine.

Then Henry Henriksen summer residence is also located on Lake Petite. Recently son John gave a small house party for Gordon Bartholomew, prior to his sailing for Europe. During the year the Henriksens reside at 800 Ashland avenue in River Forest.

Villagers continue to swell the Antioch population with Mr. and Mrs. Charles Clark residing on Lake Marie. Charles Jr. and Allan also join their parents throughout the summer.

Other vacationers from this village who have been about the Antioch lakes with some degree of regularity include Mr. and Mrs. Craig Anderson of Lake Catherine; Mr. and Mrs. M. W. Ryan, 624 South Cuyler; Mrs. M. E. Peterson; Mr. and Mrs. Fred Dupuy, 327 Marion street; Bert Green; J. H. Worswick, 407 Marion street, who also rents cottages; F. J. Olson, 700 North Taylor; M. J. Lowry, 302 North Oak Park avenue; and Mrs. Henry Bliss.

The Channel Lake district is practically owned by an Oak Park man, Paul Volk, who is a member of the Volk Brothers real estate firm. With their Mid-Lakes subdivision the Volk brothers have a great deal to do with the future prosperity of Channel.

But your correspondent is entirely worn out with all this babbling patter, and although he saw a great many more things, met more people, and did a lot more worth recording, he must bring this to a close. This composition, written while blistering sun keeps tantalizing him to forsake the work for a cool swim, is at most a bare sketch.

It all sums up, though, under the heading, "A grand place to spend the summer. Why not?"

SEALED BIDS TO WHOM IT MAY CONCERN:

Public notice is hereby given, that under Chapter 130, Revised Statutes of Illinois, the Treasurer of the State of Illinois will receive sealed bids for all public money to be deposited on active and inactive accounts, from any and all banks duly authorized to do business in the State of Illinois. Such bids will be received by the State Treasurer at Springfield on or before September 7, 1931, at 12 o'clock noon. Proper blank forms for bidding and printed instructions will be mailed to each State and National bank doing business in Illinois. All deposits must be secured by collateral security to be approved by the State Treasurer.

EDWARD J. BARRETT, State Treasurer.

TAXPAYERS SHOULD CHECK
VALUATIONS

Property valuations as published in the accompanying Assessment Roll should be checked by taxpayers. This is re-assessment year and many changes in valuations have been made. If taxpayers wish to file complaints with the Lake County Board of Review, they may do so during the months of July and August.

Burn genuine
KOPPERS COKE
Chicago
Clean as the South Sea

Don't be bullied around another winter by harboring these parasites in your basement. Smoky Jim gets into everything, and Joe Heavyash is always underfoot like a ball and chain. Pa Bentback loves to park on loaded shovels, while Sambo Soot scurries around musing up the whole house. And if you don't keep scratching Old Man Clinker's back with the poker, he'll try to break every grate in your furnace. Get rid of them all by ordering Koppers Coke. It's lighter on the shovel, smokeless and sootless, and leaves no ash worth sifting.

**KOPPERS
CHICAGO
COKE**
*"Clean as the
Sund's face"*

Don't be bullied around another winter by harboring these parasites in your basement. Smoky Jim gets into everything, and Joe Heavyash is always underfoot like a ball and chain. Pa Bentback loves to park on loaded shovels, while Sambo Soot scurries around musing up the whole house. And if you don't keep scratching Old Man Clinker's back with the poker, he'll try to break every grate in your furnace. Get rid of them all by ordering Koppers Coke. It's lighter on the shovel, smokeless and sootless, and leaves no ash worth sifting.

MAN OVERBOARD

While I was cruisin' with my old shipmate, Tops'l Barney, I had a pretty wet adventure. Seein' a big fish leap out of th' water gave me an idea. I got out my fishin'-tackle, baited a hook and tossed it overboard. Then I did get a surprise. There was a tug on th' line. I hung on for dear life, bound to land that big fish on board. I hadn't noticed that th' line had become tangled about one of my legs. There was a jerk that nearly pulled my hands off, th' line slipped through my fingers, tightened about my leg, and over th' rail I went. Singoot, my little monkey friend, saw me scoot over th' side and raised such a rumpus that all hands rushed to th' rail to see what was up.

In th' meantime I was havin' th' fastest swim I'd ever had, I tell you. That dingbusted fish would leap out of th' water, with me trailin' after it like a wet rag, then plump, down he'd go into th' water again. Then Barney sent two of th' crew to my rescue. Then was when th' real excitement commenced. Up shot that big fish, right under the boat. Up went th' boat into th' air, and out tumbled th' men on top of th' fish's back. Zip through th' water we went hangin' on for dear life. Before we knew what was happenin' th' fish landed with a thump on th' deck of th' schooner and spilled th' three of us. When I fish again I'll see to it that th' line isn't tangled about my legs.

OH SO DUMB-ONE JOLT.

HELLO, WARD.

HELLO, OLD TOPPER.

WHY DON'T YOU COME AND VISIT US?

I WORK EVERY NIGHT BUT SATURDAY.

WHY DIDN'T YOU COME OVER ON SATURDAY?

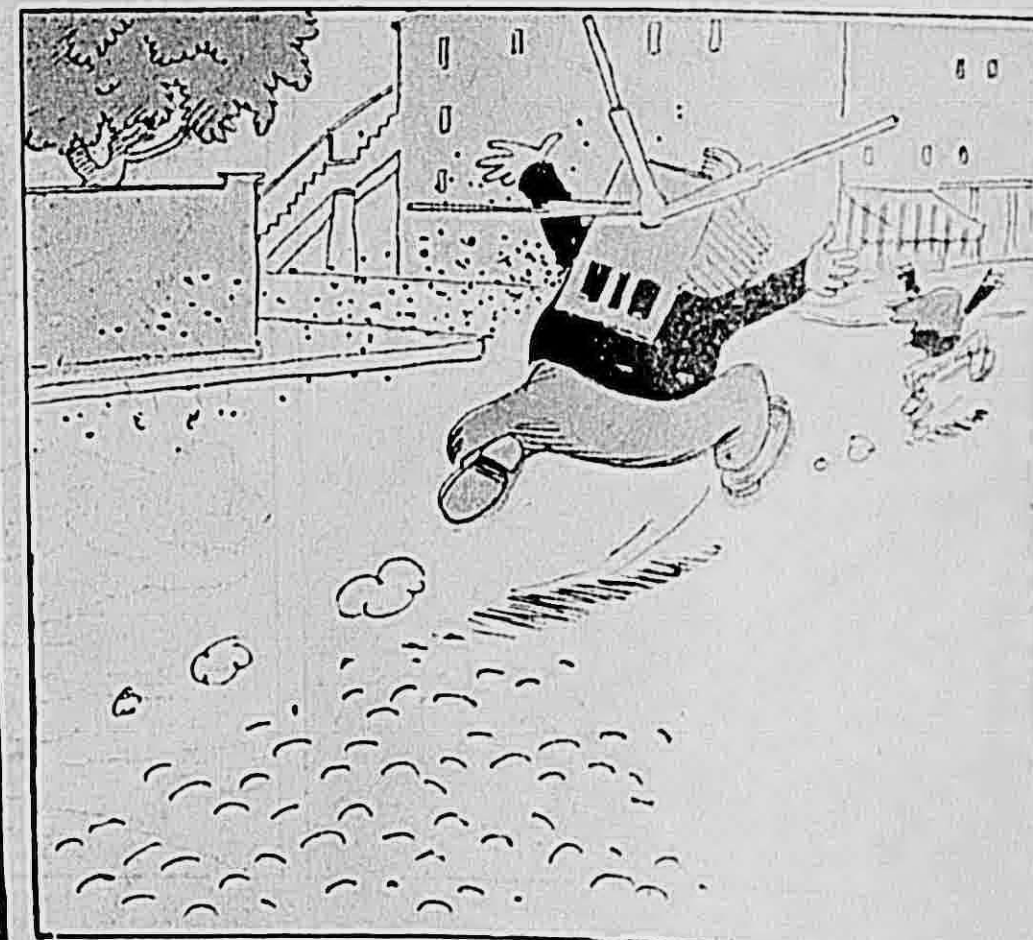

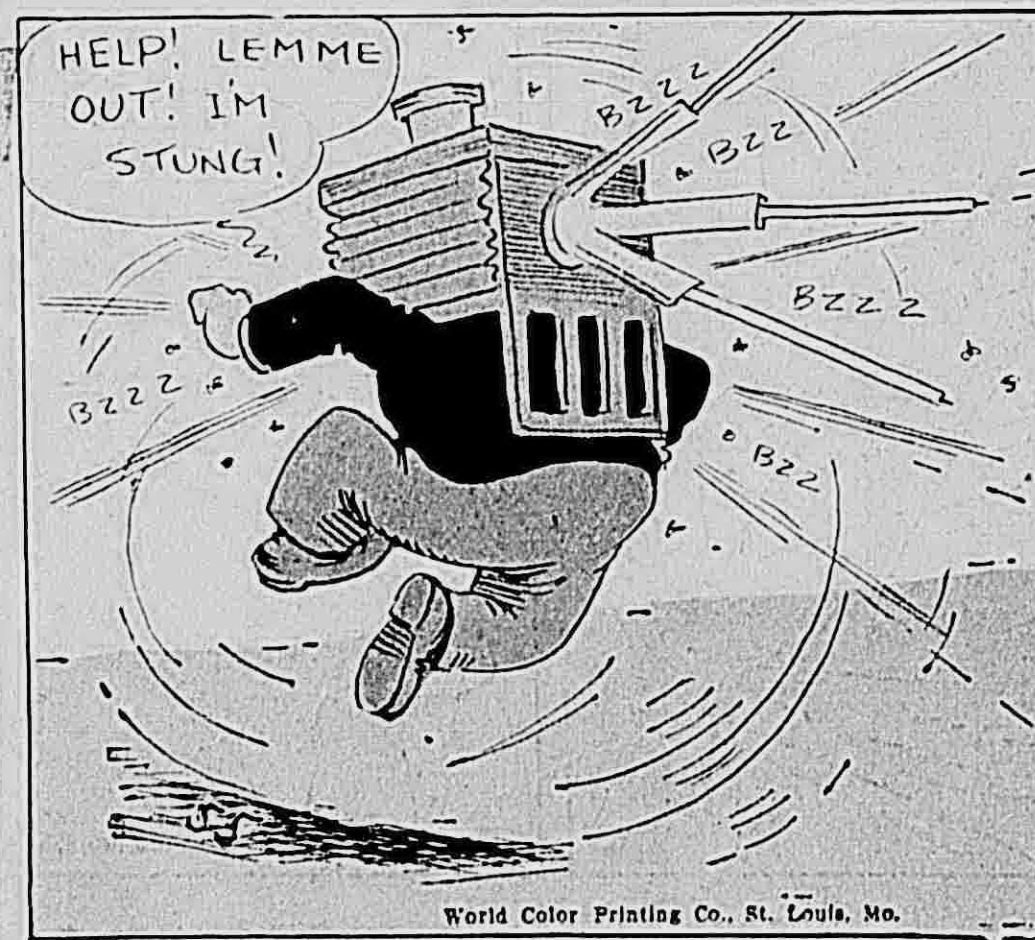

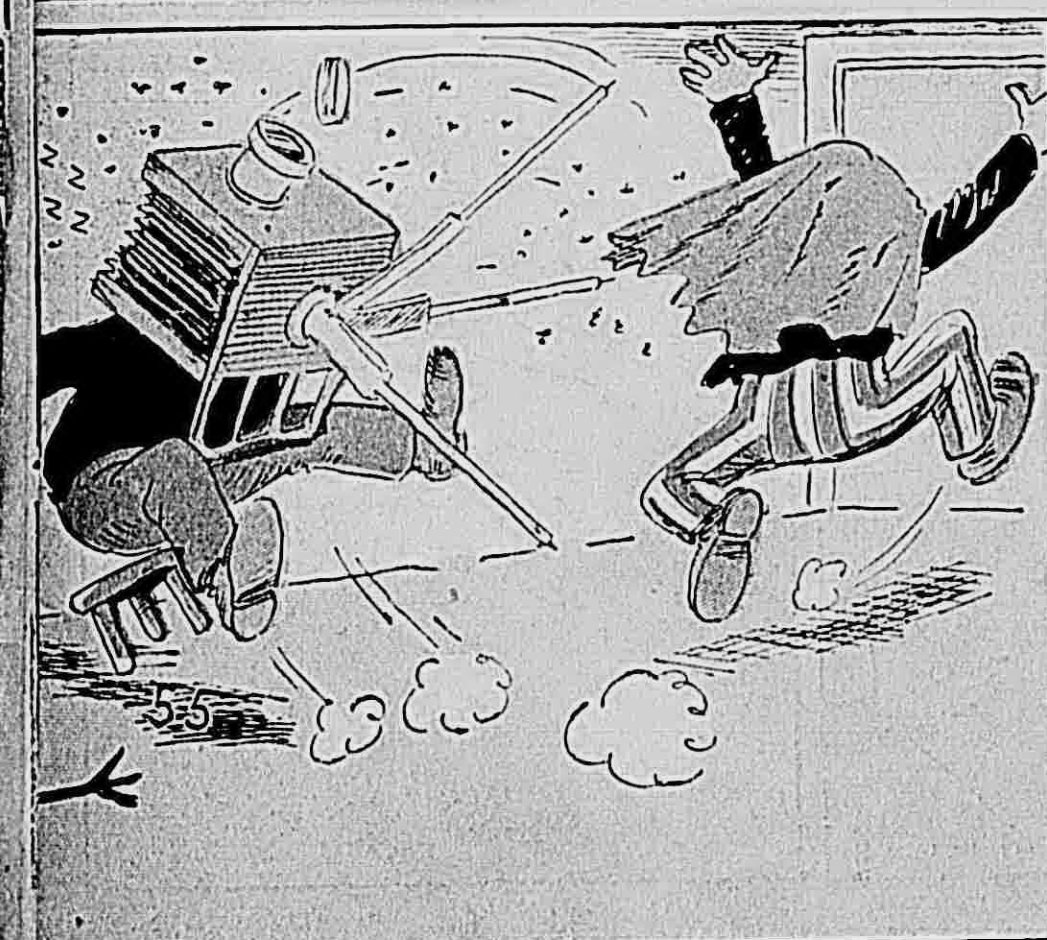

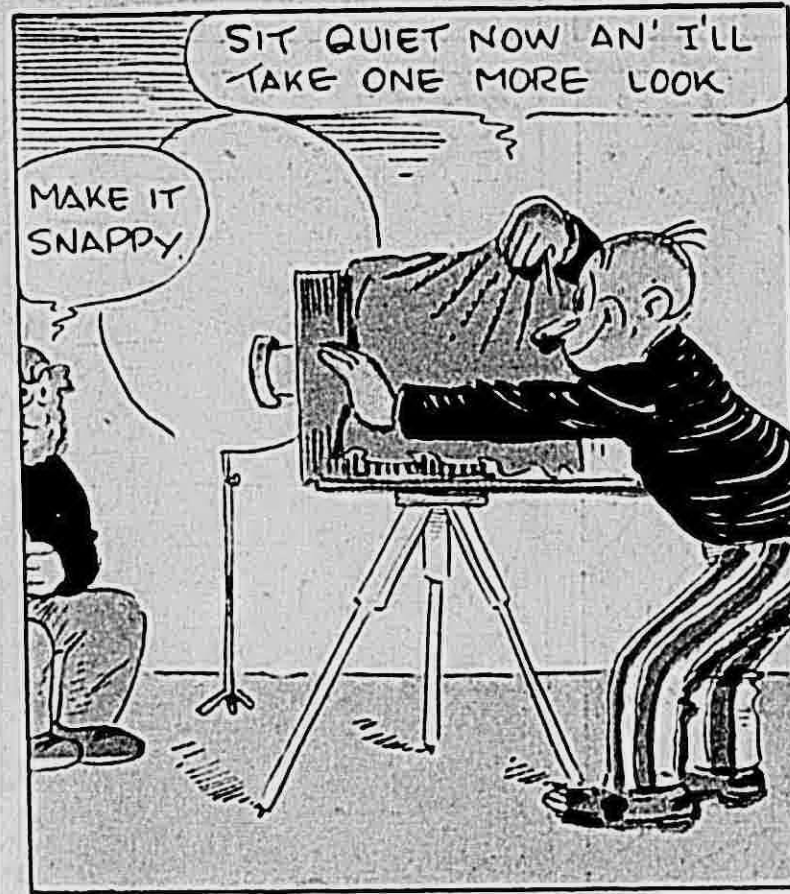

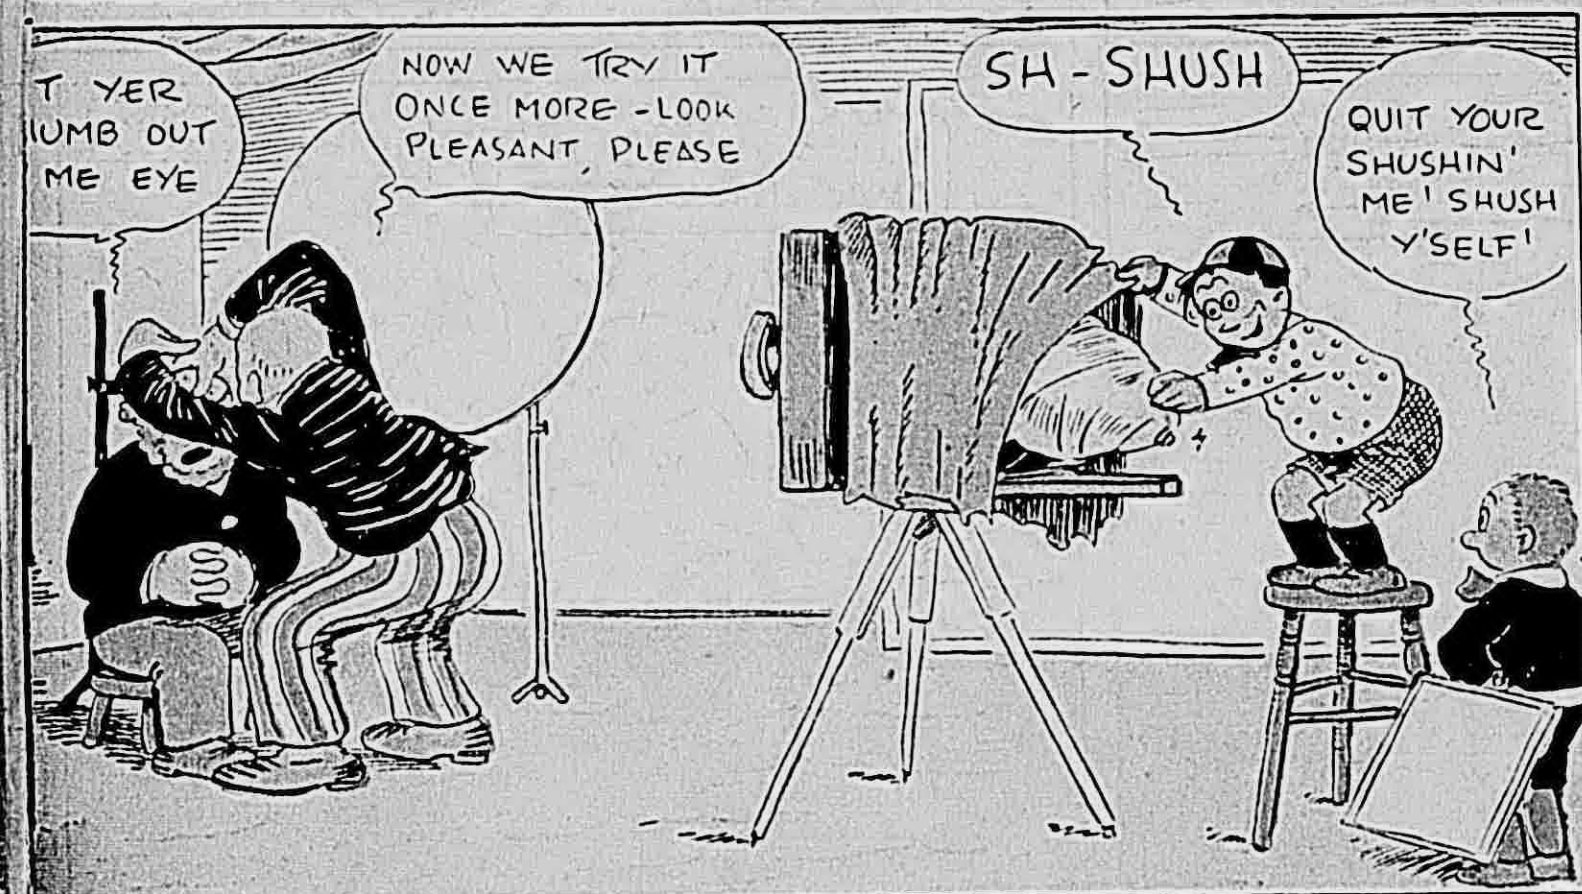

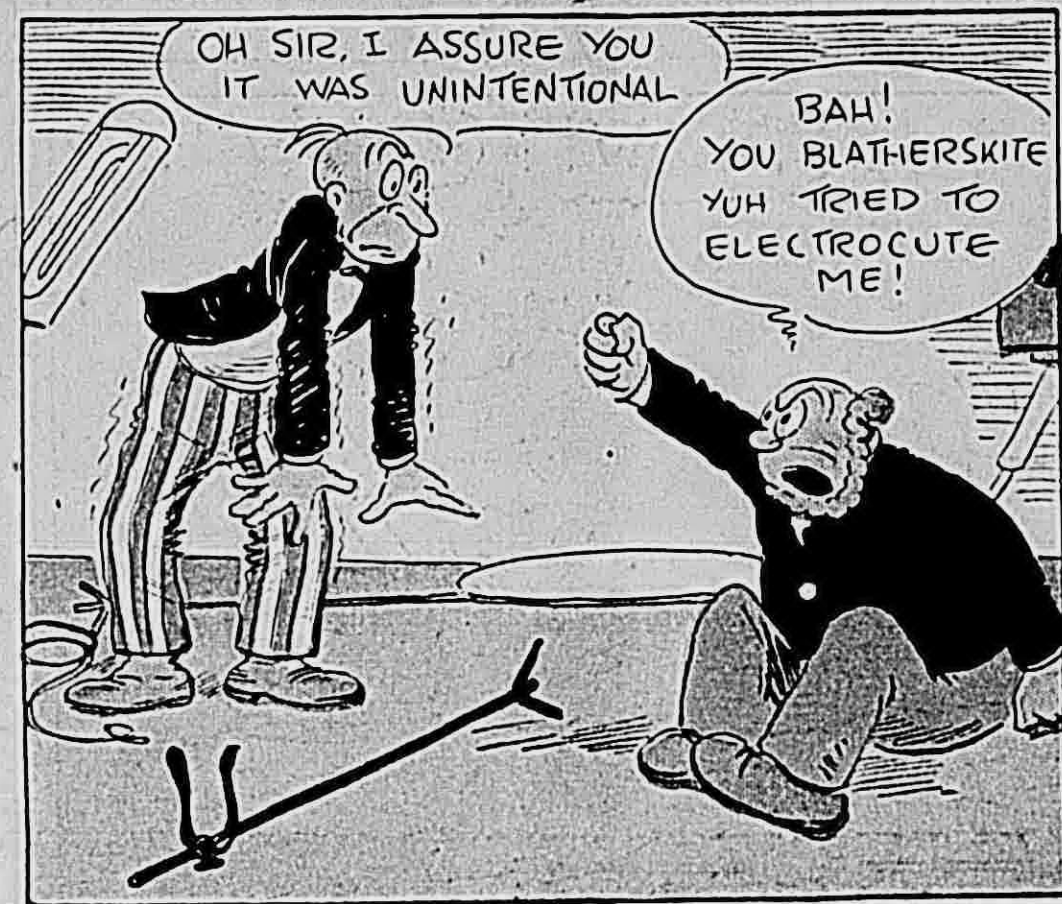

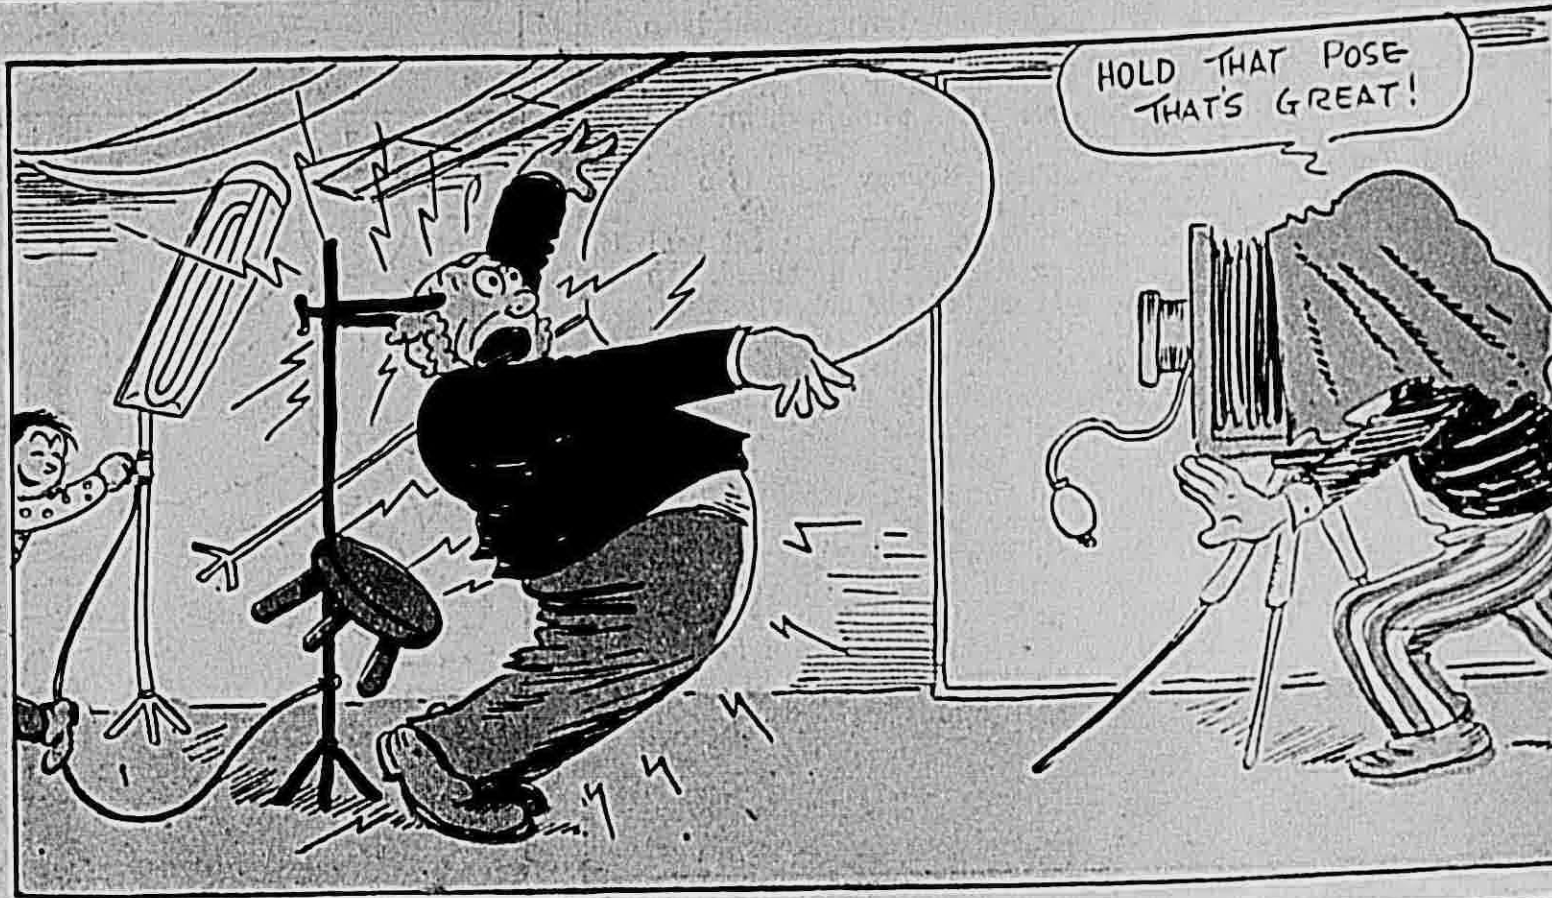

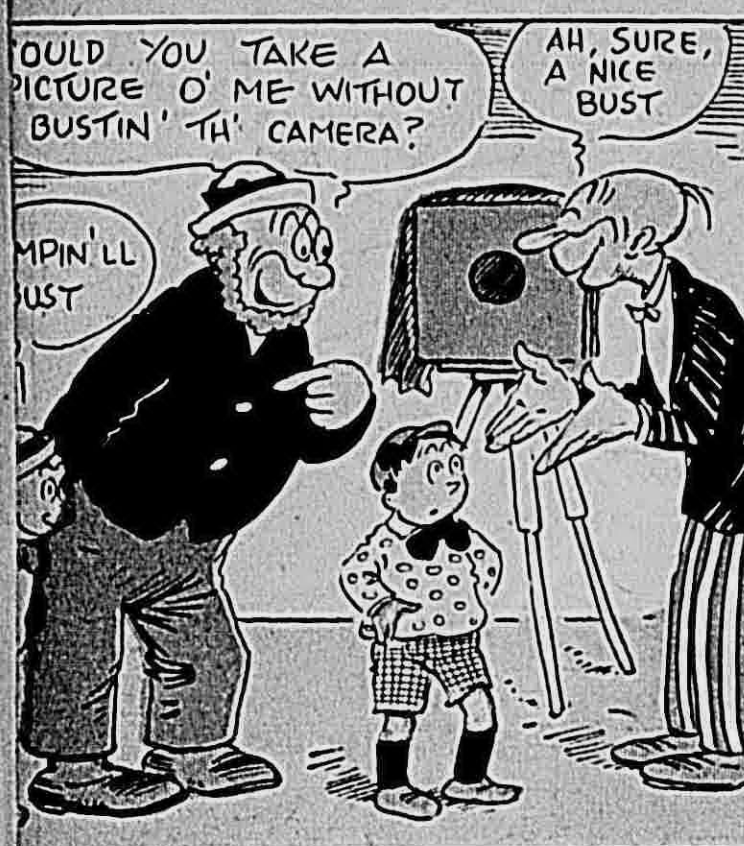

IT WAS RAINING AND BABY WAS SICK.

OH WELL.

GOOD YOU DIDN'T COME, WE WEREN'T HOME ON SATURDAY.

YEH, ME CHILD, YESH

HERE'S SOMETHING QUEER, I KNOW A MAN BY THE NAME OF HOOFUS -

HE USED TO BE A PRESSMAN.

A PRESSMAN?

SURE! RAN A PRINTING PRESS, A PRESSMAN.

YES -

WELL, NOW HE'S RETIRED, HE DOESN'T DO A THING.

AND YET HE'S AN EX-PRESSMAN.
